DIRECTORS' REPORT.

To the Stockholders of the Michigan Central Railroad Co.:

The Directors herewith submit the report of Mr. Livermore, Treasurer, showing the financial standing of the Company; the report of Mr. Rice, Superintendent, giving the details of the operating department for the year; the report of the Trustees of the Sinking Funds, and that of Mr. Boott, Auditor of the Company.

The bonded debt of the Company, June 1,		
1863, was		\$7,999,488 89
Less Sinking Funds,—1st,	\$377,480 25	
“ “ “ 2d,	102,214 10	
		479,694 35
Net bonded debt,		\$7,519,794 54
Capital stock,		6,057,436 00
		\$13,577,230 54
The bonded debt now is		\$7,740,988 89
Less Sinking Funds,—		
1st,	\$464,073 62	
2d,	132,086 44	
	596,160 06	
		\$7,144,828 83
Capital stock,	6,315,906 00	
		13,460,734 83
Reduction during the year,		\$116,495 71

The bonded debt has been decreased and the capital stock increased by the conversion of \$258,500 of convertible bonds into stock.

The gross receipts, as stated in the Treasurer's

Report, have been	\$3,417,185 65
Operating expenses, . . . \$1,548,074 18	
Expended on new grain house, 86,433 06	
State and local taxes, . . . 85,617 81	
	<u>1,720,125 05</u>

Net receipts for the year,	\$1,697,060 60
Interest and exchange account, \$600,216 77

\$1,729,758 06

Deduct dividends, as follows:—

6 per cent. paid, July 1, 1863, \$363,432 00	
6 “ “ “ Jan. 1, 1864, 363,432 00	
	<u>726,864 00</u>

Balance to credit of income account, . . . \$1,002,904 06

The earnings of the last two years are compared in the following

MONTHLY STATEMENT

Of the Earnings of the Years ending March 31, 1863, and 1864.

MONTHS.	Year ending May 31, 1863.	Year ending May 31, 1864.	Decrease.	Increase.
June, . . .	\$174,001 69	\$206,221 37	—	\$32,219 68
July, . . .	172,189 80	193,328 17	—	21,138 37
August, . . .	216,624 04	215,449 14	\$1,174 90	—
September, . . .	295,956 29	308,167 99	—	12,211 70
October, . . .	322,369 08	375,487 91	—	53,118 83
November, . . .	307,474 61	339,793 70	—	32,319 09
December, . . .	258,633 77	306,186 38	—	47,552 61
January, . . .	242,073 01	252,435 28	—	10,362 27
February, . . .	245,857 89	278,848 38	—	32,990 49
March, . . .	236,431 81	348,802 18	—	112,370 37
April, . . .	238,495 08	338,275 40	—	99,780 32
May, . . .	236,453 48	271,552 73	—	35,099 25
Totals, . . .	\$2,946,560 55	\$3,434,548 63	Net, . .	\$487,988 08.

The earnings, as stated in the Superintendent's

Account, amount to \$3,434,548 63
 The receipts, by Treasurer's Account, were 3,417,185 65

Showing outstanding earnings to be greater than

last year by \$17,362 98

The earnings and working and improvement expenses for the last two years compare as follows:

	Year ending May 31, 1863.	Year ending May 31, 1864.	Gain.	Per cent. of Gain or Loss.
Passengers,	\$889,682 28	\$1,262,415 07	\$372,732 79	+41.89
Freight,	1,983,757 35	2,073,274 71	89,517 36	+4.51
Miscellaneous,	73,120 92	98,858 85	25,737 93	+35.19
Totals,	\$2,946,560 55	\$3,434,548 63	\$487,988 08	+16.56
Expense less tax,	1,189,973 52	1,634,507 24	444,533 72	+37.35
Balance,	\$1,756,587 03	\$1,800,041 39	\$43,454 36	+2.47

It will be observed that while the gain upon Freight earnings has been but \$89,517.36, or $4\frac{51}{100}$ per cent., that of the Passenger earnings has been \$372,732.79, or $41\frac{89}{100}$ per cent. The large gain in the Passenger business is doubtless in part due to the improved financial condition of the people of the Western States, whose late years of great prosperity have placed them in a condition of comparative independence. The relatively small gain in the Freight earnings arises from the partial failure of the wheat crop in Michigan, the earnings from this staple having fallen off about 25 per cent.

The following statement compares the business of our last year with the year of our largest business heretofore:

	Year ending May 31, 1857.	Year ending May 31, 1864.	Loss.	Gain.	Per cent. of Gain or Loss.
Passengers,	\$1,610,415 75	\$1,262,415 07	\$348,000 68	-	-27.56
Freight,	1,413,492 47	2,073,274 71	-	\$659,782 24	+46.67
Miscellaneous,	80,694 47	98,858 85	-	18,164 38	+22.51
Totals,	\$3,104,602 69	\$3,434,548 63	-	\$329,945 94	+10.62
Expenses less Tax,	1,794,852 04	1,634,507 24	\$160,344 80	-	- 8.93
Balance,	\$1,309,750 65	\$1,800,041 39	-	\$490,290 74	+37.42

The very rapid settlement of the Western States, and consequent land speculations, gave to the years before 1857 a larger Passenger business, as compared with the Freight traffic, than subsequent experience has seemed to indicate as a healthy condition of the business upon the East and West trunk lines. These settlements, if they have not already, soon will render these States the largest food-producing regions of the world, and make them exporters and importers through the sea-coast of a tonnage sufficiently large to employ all the avenues in the line of this traffic.

We therefore look upon our business as having become of late years more permanently established than heretofore, and as promising in the future a steadier prosperity.

The Passenger, Freight and Miscellaneous earnings, and per cent. of earnings used in operating expenses, since 1857, are shown in the following

TABULAR STATEMENT.

Years ending May 31,	Passenger Earnings.	Freight Earnings.	Miscellaneous Earnings.	Per ct. of earnings used in operating expenses, exclusive of tax.
1857, . . .	\$1,610,415 75	\$1,413,492 47	\$80,694 47	64 $\frac{6}{10}$
1858, . . .	1,321,039 56	1,033,748 32	73,969 64	59 $\frac{6}{10}$
1859, . . .	938,609 39	831,435 46	68,084 82	53 $\frac{4}{10}$
1860, . . .	803,507 97	962,621 70	66,815 19	53 $\frac{1}{10}$
1861, . . .	775,228 53	1,218,186 29	64,637 79	51
1862, . . .	724,915 48	1,559,060 98	77,264 96	45 $\frac{1}{10}$
1863, . . .	889,682 28	1,983,757 35	73,120 92	40 $\frac{4}{10}$
1864, . . .	1,262,415 07	2,073,274 71	98,858 85	47 $\frac{6}{10}$

Our grain traffic has for several years suffered for the want of more accommodation at the Detroit terminus. To remedy this, and give us the power of further developing this branch of our business, we are now constructing an elevator capable of storing 700,000 bushels, which it is expected will be ready for use the coming fall. The expenditures thus far made upon it amount to \$86,433.06, and have been charged to expense account. Its completion will cost about as much more. If this amount was excluded from operating accounts it would leave the cost of

working the road at about 45 per cent. of its gross earnings,— a larger proportion than the cost of the previous year, from the fact that thus far we have not been able to raise the tariff rates as rapidly as the cost of materials and labor have advanced. An early increase in rates upon most of the local traffic is anticipated.

Beside the amount expended upon the elevator, there are other considerable expenditures, detailed in the Superintendent's Report, a part being for improvements and additions to the property, and such as quite generally are charged to construction, but all of which are, as usual with us, charged to working expenses.

Some of the main features of our business for the last two years are exhibited in the following

COMPARATIVE TABLE.

	1863.	1864.
Passenger earnings,	\$889,682 28	\$1,262,415 07
Freight earnings,	1,983,757 35	2,073,274 71
Miscellaneous earnings,	73,120 92	98,858 85
Total earnings,	2,946,560 55	3,434,548 63
Operating expenses, including taxes,	1,272,359 72	1,720,125 05
Net earnings,	1,674,200 83	1,714,423 58
Ratio of expenses, less taxes, to earnings,	40 $\frac{4}{10}$	47 $\frac{6}{10}$
Earnings of freight trains per mile run,	\$2 60	\$2 84
Tons of freight moved,	564,827	542,410
Average No. of tons carried per train, per mile,	130.43	126.07
Average distance freight is carried, (miles,)	176.	169.48
Freight earnings per ton, per mile,	1.99 cts.	2.25 cts.
Earnings of passenger trains per mile run,	\$1 74	\$2 13
Number of passengers carried,	447,361 $\frac{1}{2}$	645,759
Average No. of passengers per train per mile,	70.27	87.21
Average No. of miles travelled by each passenger,	80.31	79.94
Passenger earnings per passenger per mile,	2.49 cts.	2.44 cts.
Passengers carried one mile,	35,928,072 $\frac{1}{2}$	51,627,391
Passengers carried one mile per mile of road,	126,507	181,786
Tons carried one mile eastward,	73,826,089	60,867,177
Tons carried one mile westward,	25,678,889	31,061,968
Total tons carried one mile,	99,504,978	91,929,145
Tons carried one mile per mile of road,	350,369	323,694
Proportion of whole tonnage eastward, per ct.,	74.193	66.23
Proportion of whole tonnage westward, per ct.,	25.807	33.77

A moderate increase in our stock of freight cars, and some further additions to our depot accommodation, will be required the coming season to provide for that increase in our freight traffic which we think it but reasonable to anticipate.

Considering the moderate increase of working expenses, as compared with the large advance in the prices of material and labor, the handsome increase of earnings without the aid of government patronage, which upon our line, from its position, is insignificant, and the good order of the property at the close of the year, we think the stockholders cannot but regard the result of the year's work as quite satisfactory.

By order of the Board,

J. W. BROOKS, *President.*

BOSTON, June 18, 1864.

TREASURER'S REPORT.

To the President and Directors of the Michigan Central Railroad Company:

GENTLEMEN,—The accounts of the Company for the financial year ending on the 31st day of May last are herewith submitted, by which it appears that after paying two dividends, of six dollars each per share, and making the annual payment to the Sinking Funds, and deducting the usual disbursements for operating, local taxes and interest, there will be found to the credit of Income Account the sum of \$1,002,894.06. The balance of this account was \$772,636.53 at the same period last year. The net increase this year, after paying the two dividends, amounts to \$230,257.53.

A comparison of the business of the year which has just closed with that of the previous year results as follows:—

From June 1, 1863, to June 1, 1864,—

The gross receipts were	\$3,417,185 65
operating expenses, including local taxes,	\$1,720,125 05
U. S. government tax on dividend and passengers,	55,222 30
interest and foreign and local exchange,	600,216 77
sinking fund payments,	84,500 00
Total payments,	2,460,064 12
Net,	\$957,121 53

From June 1, 1862, to June 1, 1863,—

The gross receipts were	\$2,947,917 74
operating expenses, including local taxes, . . .	\$1,272,359 72
interest and foreign and local exchange, . . .	617,657 24
sinking fund payments, . . .	84,500 00
U. S. government tax on dividend and passengers, . . .	28,385 03
	<hr/>
Total payments,	2,002,901 99
	<hr/>
Net,	\$945,015 75

Showing an increase over the previous year of \$12,105.78.

The Bonded Debt has been decreased during the year by the conversion of \$258,500 to stock, and no Floating Debt has been incurred.

The capital stock has been reduced \$30, by the purchase of fractional Scrip to that amount; and increased, by conversion of Bonds, \$258,500.

The Bonded Debt amounts to the sum of . . .	\$7,740,988 89
Capital Stock,	6,315,906 00
	<hr/>
	\$14,056,894 89

Respectfully submitted,

ISAAC LIVERMORE, *Treasurer.*

BOSTON, June 1, 1864.

ISAAC LIVERMORE, Treasurer.

TRUSTEES' REPORT.

*To the President and Directors of the Michigan Central
Railroad Company:—*

The Trustees appointed under the Trust Mortgage Deed of the Michigan Central Railroad Company to John M. Forbes, Nathaniel Thayer, and H. H. Hunnewell, Trustees, under date of September 29, 1857, report: That the present standing of the Sinking Funds, the care of which was intrusted to them, shows the balance to the credit of the First Sinking Fund on the 31st of May, 1864, was in

Bonds at par, viz.:—	
Michigan Central,	\$339,000 00
Joliet,	68,000 00
U. S. Five-Twenties,	39,000 00
Hannibal and St. Joseph Land,	18,000 00
	\$464,000 00
Cash in Boston Bank,	73 62
	\$464,073 62

To the credit of the Second Sinking Fund on the 31st of May, 1864, was in

Bonds at par, viz.:—	
Michigan Central,	\$109,000 00
Joliet,	18,000 00
Hannibal and St. Joseph Land,	5,000 00
	\$132,000 00
Cash in Boston Bank,	86 44
	\$132,086 44

The accounts for the year ending May 31, 1864, are as follows:—

Michigan Central First Sinking Fund, in account with the Trustees.

Cash in Boston Bank, May 31, 1863,	\$480 25	
Received July 10, 1863, for 68 Coupons at \$40 each, . . .	\$2,720 00	
Less Government Tax, 3 per cent.,	81 60	
	<hr/>	2,638 40
Received Oct. 1, 1863, for 309 Coupons at \$40 each, . . .	\$12,360 00	
Less Government Tax, 3 per cent.,	370 80	
	<hr/>	11,980 20
Received Oct. 27, 1863, from I. Livermore, Treasurer, sixth annual payment, on account of First Sinking Fund, . . .	60,000 00	
Received Jan. 11, 1864, for 68 Coupons at \$40 each, . . .	\$2,720 00	
Less Government Tax, 3 per cent.,	81 60	
	<hr/>	2,638 40
Received April 1, 1864, for 339 Coupons at \$40 each, . . .	\$13,560 00	
Less Government Tax, 3 per cent.,	406 80	
	<hr/>	13,153 20
Received May 21, 1864, 6 months interest on \$39,000 U. S. 5-20 Bonds; gold \$1,170, sold at 167½ per cent.,		1,959 75
Cost of \$30,000 in Bonds at 117½ per cent.,	\$35,287 50	
Cost of \$39,000 in U. S. 5-20 Bonds at 99⅞ per cent.,	\$38,951 25	
Less one day's interest,	6 50	
	<hr/>	38,944 75
Cost of \$18,000 in Bonds at average of \$975.22 per \$1,000,	17,553 92	
Commission on purchase of Bonds 1 per cent. on cost, . .	917 86	
Expense for clerk hire,	71 00	
Cash in Boston Bank,	84 17	
	<hr/>	\$92,859 20

Michigan Central Second Sinking Fund in account with the Trustees.

Cash in Boston Bank May 31, 1863,	\$214 10

BOSTON, June 16, 1864.

AUDITOR'S REPORT.

BOSTON, June 21, 1864.

♦
To the Directors of the Michigan Central Railroad Company:

GENTLEMEN,—I have examined the Treasurer's books at Boston, and the Superintendent's at Detroit, for the year ending 31st May, and have found them to be correctly kept, and supported by proper vouchers.

★
Respectfully,

WILLIAM BOOTT, *Auditor.*

SUPERINTENDENT'S REPORT.

SUPERINTENDENT'S OFFICE, MICHIGAN CENTRAL RAILROAD, }
 & DETROIT, June 10, 1864. }

J. W. BROOKS, Esq., *President*:

SIR,—I beg leave to submit the following statement and statistics relating to the business and working departments of the road for the year closing with May, 1864:—

EARNINGS OF ROAD.

From Passengers,	\$1,262,415 07
Freight,	2,073,274 71
Miscellaneous,	98,858 85
	\$3,434,548 63

Increase over previous year, as follows:

Increase on Passengers,	\$372,732 79
on Freight,	89,517 36
on Miscellaneous,	25,737 93
Total increase over last year,	\$487,988 08

Table [E.] herewith gives an exhibit of the comparisons in detail with the previous year, which shows the percentage of increase on the different classes of traffic to be as follows:

Increase from Through Passengers,	47 per cent.
from Way Passengers,	38 “
from Through Freight,	8 “
from Way Freight,	$\frac{3}{10}$ “
from Miscellaneous,	35 “

It will be noticed that a large proportion of the total increase of earnings is made upon the Passenger business, distributed nearly equally among the Through and Way in each direction.

The gain upon Way Passengers has been to some extent influenced by the movement of local troops, while this element has had but little to do with the increase on through business. The rail connections of this line eastward being through Canada, prevents its participation, under the rules of the United States government, in the movement of troops to or from the East.

The increase of Passenger earnings has been $41\frac{9}{10}$ per cent. Increase of mileage of Passenger trains but $15\frac{8}{10}$ per cent.

The aggregate earnings from Freight show a gain of \$89,517.36,—an increase of but $4\frac{1}{2}$ per cent. over the previous year. This small aggregate gain is in consequence of the falling off of about 25 per cent. in earnings from the important staples, wheat and flour, by reason of the crop of last season having been much below the average.

The gain on westward bound Freight, both through and local, is quite large, being 47 per cent. on *through* and 22 per cent. on *local*.

By reference to Table [H.], showing detailed tonnage of Freight moved, it will be seen there was a less amount of Freight moved this year than last, by upwards of 22,000 tons, or about 5 per cent., while the gain in aggregate earnings has been $4\frac{1}{2}$ per cent., notwithstanding the large falling off in grain and flour and some other articles.

This showing is by reason, in a measure, of advanced rates on through business. Up to this time no advance has been made upon the rates of local tariff; but the cost of materials and labor having become so burdensome, a revision of the tariff has become necessary, and is being made, to go into operation before the close of the month.

The new grain elevator at Detroit, with capacity for 700,000 bushels, is progressing very well, and it is hoped will be ready for the fall crop. This will be the most substantial and capacious structure of its kind in this State, and is much needed for the proper accommodation and cultivation of our grain traffic.

Indications give encouragement for anticipating a continued fair business, and although the expenses of operating are rapidly

advancing, it is believed that all who are well served are prepared to meet any just and reasonable advance in rates to enable the Company to do its work in a satisfactory manner.

The contract between the Company and the Louisville, New Albany and Chicago Company expired on the 30th day of September last, and a new one was entered into at that time for two years, by which the Michigan Central only work the Passenger trains between Michigan City and Lafayette.

ARRANGEMENT OF TRAINS.

The number of regular trains and time of running does not materially differ from the schedule of the last two years. Three through Passenger trains, and a local between Detroit and Dexter, 47 miles. No trains arrive at or depart from Detroit on Sunday. The Table indicates two through Freight trains daily, besides the usual way trains, but under the telegraph system no Freight trains are run *because* of their being on the Time Table, unless needed for the current business. Under the same rule, Extras are run when the business requires it.

It will be noticed that the mileage of Freight trains is about 5 per cent. below the last year, which compares properly with the falling off in tonnage, as shown in Table [H.]

OPERATING EXPENSES.

The expenses charged to working the line this year, as shown in Table [I.], amount to \$1,720,125.05, from which should be deducted taxes, \$85,617.81, and expenditures on new grain elevator at Detroit, which is a proper charge to construction, (were that account not closed,) amounting to \$86,433.06, leaving as the amount properly chargeable to operating the road the sum of \$1,548,074.18, or about forty-five per cent. of gross earnings. Deducting nothing from the expenditures but the State taxes, makes the cost of operating about forty-seven and one-half per cent. of earnings. The property of the Company is in all respects in as general good condition as at the commencement of the year, being as fully equipped for business in every way as it has ever been. The track is now in quite as good or better condition than at the beginning of the year, and

it will be noticed in the statement below that the usual percentage of rails, new and repaired, have been used in its maintenance.

The government has during the year made requisitions for cars and engines, and sale has been made to them of seventy-five Freight cars, four second-class cars and one engine, and the cash has been received except for about one-half of the amount—the delivery of a portion of the cars having been of a recent date. The amount received has gone to the credit of the proper accounts as an offset towards renewals.

In the expenses shown in Table [I.] are embraced, among others, the following important items :

New grain elevator at Detroit, not yet completed, \$86,433.06.

New brick passenger depot at Ypsilanti, not yet finished inside.

New offices in freight department at Detroit.

Four large brick water-houses on line.

Engine-house and turn-table at Dexter.

Eight woodsheds, 800 feet in all.

Burnetizing vats at Detroit, Wayne and Niles.

Large iron turn-tables at Detroit and Michigan-City.

New turn-table at Battle Creek.

Extensive repairs of freight and passenger houses at Jackson.

2,650 feet, in length, of new platforms on the line.

New and extensive stock yards at Battle Creek.

Cattle yards at Augusta, Donogaic and Chamberlins.

2,334 $\frac{260}{240}$ rails, re-rolled and put in track.

1,268 tons rails repaired and replaced in track.

10,598 feet new siding on the line.

40,746 ties.

66 cattle guards.

35 stone culverts.

23 miles post and board fences.

20 miles rail fence.

Cars have been rebuilt as follows :

13 8-wheel, first-class cars, adapted to the use of troops, fairs and excursions.

- 1 12-wheel baggage car.
- 114 8-wheel freight cars.
- 55 hand cars.
- 22 wood and repairer's cars.

With this are the reports of J. B. Sutherland, Superintendent of Car Works, and A. S. Sweet, Jr., Superintendent of Motive Power, giving the transactions under their immediate charge, to which I beg to call your attention.

The relations between this and other roads are of the most harmonious nature, and this mutual good feeling not only exists with its immediate connections with whom business is interchanged, but also with those competing for the same traffic; and it is hoped that all will continue to appreciate the mutual advantage and strength growing out of this line of policy, the result of which tends to secure to all fair compensation for services rendered their patrons.

It is gratifying to bear testimony again to the faithful performances of those engaged in different branches of service, as with hardly an exception, a commendable ambition to secure good results has been manifested by all.

Yours respectfully,

R. N. RICE,

General Superintendent.

REPORT OF LOCOMOTIVE SUPERINTENDENT.

R. N. RICE, Esq., *General Sup't Michigan Central R. R. Co.:*

SIR,—Herewith please find statement of the working expenses of the Locomotive Department for the year ending May 31, 1864.

STATEMENT of *Miles run by Locomotives, during the year from June 1, 1863, to May 31, 1864, inclusive.*

MONTHS.	Miles Passenger Trains.	Miles Freight Trains.	Miles Working Trains.	Miles Training Trains.	Miles Total.
1863.					
June, . . .	50,566	53,636	9,980	7,935	112,117
July, . . .	49,325	47,431	8,164	7,485	112,405
August, . . .	54,143	46,168	8,361	7,905	116,577
September, . . .	53,258	58,515	10,824	8,095	130,692
October, . . .	52,078	71,676	10,823	8,050	142,627
November, . . .	50,484	74,081	11,375	11,736	147,676
December, . . .	46,282	68,487	9,886	10,835	135,490
1864.					
January, . . .	43,678	61,500	8,427	12,405	126,010
February, . . .	49,626	65,316	7,638	13,935	136,515
March, . . .	44,069	61,320	6,353	12,412	124,154
April, . . .	49,367	63,549	8,523	13,500	134,939
May, . . .	49,118	57,503	9,679	12,775	129,075
Totals, . . .	591,994	729,182	110,033	127,068	1,558,277

STATEMENT of the *Renewals made during the year ending May 31, 1864.*

- 26 flue sheets.
- 19 crown sheets.
- 13 head sheets.
- 74 rings wrought locomotive tire.
- 16 rings cast chilled locomotive tire.
- 99 tender and truck axles.

359 tender and truck wheels.

11 straight locomotive driving axles.

6 crank axles.

18 locomotive driving wheels.

29 new locomotive caps.

37 new pilots.

30 new tender frames, with running gear complete; 13 passenger,
17 freight.

35 tanks, thoroughly repaired.

33 sets flues pieced and reset.

11 new smoke stacks.

1 new tank.

*STATEMENT of the Number and Occupation of Employees at the different
Shops on the Road.*

Condensed Statement of the Working Results of the Locomotive Department for the current year ending May 31, 1864, to show operations on main line only.

Total number of miles run,	1,558,277
Cost of locomotive repairs,	\$158,915 49
Cost of repairs per mile run,	10 $\frac{19}{100}$ cts.
Cost of engineers, firemen, watching and wiping,	\$84,944 24
Cost per mile run,	5 $\frac{45}{100}$ cts.
Gallons of oil used, 14,878, at 86c.,	\$12,796 48
Cost per mile run for oil,	$\frac{82}{100}$ ct.
Cords of wood used,	207,000
Cost per mile run for wood,	6 $\frac{86}{100}$ cts.
Rags used, 39,956 pounds, at 9 $\frac{41}{100}$ c.,	\$3,759 85
Cost per mile for rags,	$\frac{24}{100}$ ct.
Waste used, 5,687 pounds, at 29 $\frac{1}{2}$ c.,	\$2,677 66
Cost per mile for waste,	$\frac{17}{100}$ ct.
Total cost per mile run,	23 $\frac{74}{100}$ cts.

Total number of Locomotives, 97

During the year the ten-wheel engine Tiger has been rebuilt, and is now about ready to run, and possesses all the modern improvements, and is far superior to what it was when first brought out. The ten-wheel engine Salamander is being rebuilt and remodelled into a powerful eight-wheel engine, sixteen by twenty-four, with five-foot wheel, and possesses all the improvements of value, such as a vibrating truck, tubular exhaust-heater, Gregg's patent driving-wheel, entire new tank and tender. This engine is entirely new, except a portion of the outside shell of boiler. In this connection, it is but justice to state that no extra men have been employed on account of this job, but the time that would otherwise, much of it, have been lost has produced the labor part of this engine. I have much of the work complete for another engine of the same class,—the Rocky Mountain,—which will be brought on the floor soon, and turned

out the coming year. We are now putting an enlarged copper fire-box, with diaphragm, in the Pacific, and otherwise fitting it for coal-burning, with increased length of grate without decreasing length of flues. A scarcity of boiler-makers' help has prevented me from getting it out before this. It will be out about the first of August. The South Sea was the first coal-burner brought out, and it did its work a portion of the last year well, showing that no radical change is necessary in their construction to fit our engines for coal-burners, except to change the metal in and space around the fire-boxes, and at the same time increase the length of grate without interfering with length of flues. The South Sea made about thirty-five miles to each ton of coal consumed. But the fire-box has given out, in consequence of narrow water-spaces and iron box, and the White Bear was fitted up to take its place. It also has done well, making over thirty miles to the ton for two months.

I have a passenger engine on the floor that I intend to burn coal in. It will take three months to get it out. The heavy business on the road and scarcity of help, especially boiler-makers, has prevented me from getting out two or three more coal-burners. The past year boiler-makers have been very scarce, and have been getting high wages. As soon as some of the heavy government contracts in town are completed, I hope to be able to get a couple of coal-burners in the works at a time. Engine Stranger was newly fitted up and greatly improved in its working parts and finish, and sold to the government. There are now but three ten-wheel and five small engines owned by the Company that are not in use, or in the works under repair, and they will be put in running order as the business of the road requires them.

The shops in this place are in good condition, but there is a slight scarcity of tools to meet the scarcity of labor. Our one hundred and twenty-five horse-power engine is doing its work finely, and gives us efficient and uniform power, neither of which could be realized from the old one, although it is burning but three cords of wood a day, while the old one burned four cords. Much can be saved by having more steam room, to meet the very large demand at times of the car department. I am, therefore, building another boiler, now nearly done, to couple with it, which will exhaust all the heat that now escapes, and give efficient steam room, and enable us to heat the shops in the winter without any additional furnace.

We have a new iron turn-table on hand for our square engine-house, which must be put in this summer.

The Marshall and Michigan City shops are still, as last year, under the immediate supervision of A. J. Scoville and Jacob Losey. The shops and engine-sheds are in good order, except boilers, water-tanks and turn-tables. Both shops will require new boilers this year. Exten-

sive repairs of the boilers as taken from our old engine at this place may answer for them. Both engine-sheds will require mostly new water-tanks this year. The turn-table for Michigan City is purchased and ready to be put in. But both Marshall and Chicago will require them this year. Chicago engine-shed, tools and premises are in good condition, and under the immediate supervision of Fred. C. Losey. Joliet Division is still under the immediate supervision of A. A. Bissell, and the engine-shed, tools and premises are in good order.

Our motive-power, as a rule, is in first-class order, and in that respect will compare favorably with any road in the country.

Although the business in this department has been carried on under great perplexities and difficulties during the entire year, a great amount of work has been done, and I think as good results realized as could be expected under the circumstances.

All of which is very respectfully submitted,

A. J. SWEET, JR.,

Locomotive Superintendent.

REPORT OF SUPERINTENDENT CAR DEPARTMENT.

DETROIT, June 1, 1864.

R. N. RICE, Esq., *General Sup't Michigan Central R. R.*:

SIR,—Herewith I hand you annual report of labor expended and material used in Car Department for the fiscal year ending May 31, 1864, which, with the following statements, is most respectfully submitted:—

The rolling stock in this department consists of the following number of cars of the different classes:

PASSENGER CARS.

- 56 first-class, with 12 wheels.
- 6 first-class, with 12 wheels, sleeping cars.
- 13 first-class, with 8 wheels, military cars.
- 4 second-class, with 8 wheels.

BAGGAGE CARS.

- 9 with 12 wheels.
- 9 with 8 wheels.

FREIGHT CARS.

- 28 covered 8-wheel way cars for use of conductors and men in charge of live stock.
- 1,050 covered, with 8 wheels.
- 211 platform, with 8 wheels.

HAND AND RUBBLE CARS.

- 118 hand cars.
- 151 wood and repairing cars.

CARS REBUILT.

10 military cars, 8 wheels.

3 drovers' sleeping, (8 weeels,) rebuilt and changed to military cars.

1 baggage car, 12 wheels.

93 large 8-wheel box cars.

2 large 8-wheel stock cars.

18 large 8-wheel double-deck stock cars.

1 large 8-wheel platform car.

55 hand cars.

22 wood and repairing cars.

Fifty of the above-mentioned box cars are provided with improved "Centre-bearing Trucks," and are part of two hundred we are now building, all of which are to be mounted in a similar manner. In addition to the ninety-three box cars, there has also been rebuilt, to fill a government requisition, seventy-five box cars, mounted on trucks to run on a five (5) feet gauge track, together with four second-class cars, making the total number of cars rebuilt for the year, two hundred, not including the hand and rubble cars.

J. B. SUTHERLAND.
